

"As a parent of three, this last year has taught me so much about what truly is essential in my kids' lives. When you break it all down, our kids crave the excitement of first-hand experiences. They celebrate the shared joy of friendship and love. And they need the space and opportunity to 'just be a kid.' At Biron's we are committed to creating programs that meet our kids needs, so they can get back to growing up happy and healthy.

Join us this summer, and experience together again."

- Patrick Biron, President BYSC
